

Defining your personal interior style often starts with your choice of dinnerware. It reflects your lifestyle, your way of dining. The importance of presentation is without doubt the key feature to a successful dinner.

The power of tableware lies within its capacity to enhance the dining experience, without taking the spotlight away from the dishes. It

enriches the total food experience.

Keeping that in mind, the Belgian brand CHIC brings you unique and timeless designed tableware, in combination with unique material features. Currently, the tableware industry is strongly focused on design, while the user friendliness of the items is often forgotten. To counter this, CHIC aims to produce user-friendly

products with an added value. The different product lines of the brand CHIC are developed with the vision to combine an elegant design with innovative materials (e.g. lightweight material, magnesium porcelain, mass coloured) that on their turn meet the user requirements. With its innovative tableware products you'll be able to create a food presentation that satisfies your own wants and needs.

Dark and gloomy mixed with a refreshing organic shape. Cala provides carefully shaped porcelain tableware with a black base colour. Its design is based on the perfect balance between material, shape and proportion. The lightweight nature stimulates the manageability of the items. The most surprising part of the collection lies within its innovative reactive glaze. This glaze is manually applied on each item and is made out of a mix of matte and shiny elements. Coupled with a mysteriously smoked mirrored backside, the collection ensures a high class luxury appearance.

CELEST

Celest is serving the refined organic look. This high quality porcelain tableware is graceful and elegant, but with a reactive glaze finish that really pops. This reactive glaze creates different color nuances for

each item. The imperfect shape gives each piece of tableware an authentic, handmade look. Every item is available in both white and bronze, perfectly matchable or strong on their own.

The Claro collection is the ultimate proof of pure European craftsmanship. The collection, made from stoneware, contains various items in organic, round shapes. The range stands out because of the industrial look which it received thanks to the use of a reactive glaze. This results in a unique product, allowing you to add a luxurious touch to your table. The combination of the organic shapes and metallic colours creates an outstanding product that offers a stunning contrast with white tableware. Above this, the plates, dishes and bowls retain their beautiful colour, even after frequent use. The collection is doing exceptionally well at various catering establishments and hotels, especially in businesses that want to create a unique atmosphere and experience.

CLASSICO

As the name suggests, Classico resembles a classic shape that never goes out of style. Its clean and perfectly balanced form is perfect for everyday use, as well as special occasions. The items are available in different sizes allowing you to serve your dishes on the most suitable plate. All Classico

items are made of the unique SiloxiHT material. The hardness of the material improves the durability of the products and its lightness helps reduce the carbon footprint of daily operations. It's a timeless classic that will make any table fresher, cleaner and more inviting.

CONCHA

The shell-shaped porcelain tableware items from the Concha collection breath the glamorous atmosphere of art deco. Bulky round and oval shapes in combination with a pearly gloss finish ensure tons of ambiance. Add a decorative

detail to your table by using one single item for individual meals or arrange different Concha plates of diverse sizes and shapes into a shiny, captivating cluster of seashells, an interesting canvas for sharing food.

For the creation of its Facet collection, CHIC focused mainly on the importance of function and aesthetic values. Tactile characteristics fulfill the timeless designed items, giving them an extra dimension. The geometric shaped relief catches the light and creates an interesting play with shadows, causing beautiful effects that will highlight each dish served. The innovating and playful hints determine the atmosphere at the table, without taking over. Just like the Perla, Classico and Verso collections, this highly versatile collection is also made out of the SiloxiHT formula, which allows the product to be thinner, more durable, lighter in weight and more translucent than any other porcelain product. The beautiful shiny off-white glaze encourages the finesse of the collection.

FLORET

The items from the Floret collection exude a rustic charm. The subtle relief of a flower gives the collection a unique look. Romantic and elegant, this porcelain dinnerware is available in both matte white and bronze. Above this, all items are finished

with a reactive glaze. This reactive glaze creates different color nuances for every product. Each item thus becomes a unique work of art that forms a beautiful backdrop for delicious delicacies in a very special way.

JADE

The perfect balance between design and choice of materials gives the Jade collection a distinct character. The robust but very clean shapes are made of highly durable porcelain, which ensures the strength and durability of the items. Classic forms are combined with a modern touch; appealing, radiant sage green colours are stylishly alternated with subtle

complementary soft white colour tones. The earthy notes create a rural atmosphere that perfectly frames your dishes for a well-thought out meal. Its colours are inspired by the precious gem Jade ("Jadeite"), therefore also the name "Jade". As such, Jade will bring a natural element to any modern or contemporary table.

PERLA

Perla (referencing the beautiful white round pearls from pearl oysters) is a symbol of innovation in several ways. It's the "top of the bill" collection from CHIC, where elemental natural beauty got combined with updated styling. The Perla collection is made of the unique formulation SiloxiHT. This formulation consists of a blend of quality materials, which allows the product to be thinner, more durable, lighter in weight and more translucent than any porcelain product. SiloxiHT guarantees fine bone china looks with robust characteristics. Above this, the

durable and lightweight material is a good feature for the catering and restaurant staff, but also perfectly suited for the airline industry. Both the chef and the person who serves the plates like to work with it.

Perla boasts a magnificent gloss and organic round shapes, which are unique. *"The lightweight nature and durability really appeals to hospitality. The organic shapes look like they add a point of interest but keep quite clean lines, which is ideal. This range is very marketable and the price points make it great value for money"* (Birch, 2018).

Perla award nominated product

Thanks to its unique characteristics, the Perla collection got in its year of introduction nominated for the Horecava Innovation Awards 2018 (Amsterdam), the award for the best innovation in the Dutch foodservice industry. Next to this, the collection was exposed at the "Innovation & TrendLAB" at Horecava and the "What's new" exhibition's area at Maison&Objet in Paris. Last but not least, the collection ended up second in the Tableware International Awards of Excellence 2018 in the category "Hospitality", which was awarded at Ambiente (Frankfurt). Horecava being the largest hospitality fair in the Netherlands, Maison&Objet the international authority for home decor, interior design, architecture and lifestyle culture and Ambiente the world's most important consumer goods trade fair; therefore these nominations are an achievement on their own.
